

Quick guide to filling out the form

Before you begin

- 01** **Keep your cell phone and vehicle handy.**
- 02** **Ensure that the photos are in focus and well lit.**
- 03** **Keep your vehicle documentation handy**

- 01** **Photos of the vehicle from the front, rear, and sides**

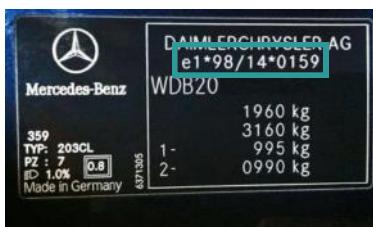

- 02** **Photo of front and rear tire measurements**

Where the tire measurements are clearly visible.

- 03** **Photo of the manufacturer's plate**

Most of the time it is usually in the door frame or in the engine compartment.

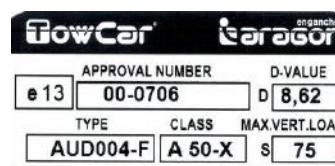

- 04** **Know the number of reverse lights and rear fog lights the vehicle has.**

- 05** **Learn about the optional features available for the vehicle.**

An example of optional extras that we might find would be: a sunroof, an aerodynamic kit, or a spoiler.

- 06** **Photo of the tow bar plate (if applicable)**

It is always located on the same tow hitch or on the light cluster. If it is not there, the hook must be removed and cannot be included in the reduced file.

- 07** **In the case of motorcycles**

Photo of the odometer, headlight, and all lights, including turn signals, reflectors, and license plate, showing the approval of these devices.
